## Game Development Experience

- C++
- C#
- Unity
- Unreal Engine
- Direct3D (Own Engine)
- HLSL

## PROFILE

After five years in the kitchen, I decided to follow my passion for games and get into programming. I love exploring different areas of game development, especially gameplay and shader programming. Working in restaurants taught me how to handle high pressure situations, but I've always been driven by learning and growth. I also enjoy the social side of things whether it's organizing team building activities or just collaborating on fun projects.

## LANGUAGE

- Swedish
- English

## HOBBIES

- Magic the Gathering
- Cooking
- Everything Dark Souls
